ULTIMATE TEXAS OMAHA — Dealer Card

Procedure

1. Players place the **Base**. Shuffle one 52-card deck.
2. Deal **6 cards** face down to each player and the dealer (max 6 players).
3. Players set **2 cards in Hold'em** and **4 in Omaha**, face down, and tap the mat to lock. No changes after this.
4. Dealer sets own hand by **House Way H** (below), face down.
5. **Preflop:** each player may bet **4×** the Base in Play, or check.
6. Burn 1, deal the **flop**. Players who have not bet may bet **2×**, or check.
7. Burn 1, **turn**; burn 1, **river**. Players who have not bet **must bet 1×** (no folding).
8. Dealer reveals and compares hand by hand: Hold'em vs Hold'em, Omaha vs Omaha (Omaha uses exactly 2 + 3). **A tie is a lost hand for the player.**
9. Settle each player (table below).

House Way H — use the first step that applies

1. **Three or four of a kind:** two of them to Hold'em.
2. **Two or three pairs:** the highest pair to Hold'em.
3. **One pair:** 9s or higher → pair to Hold'em. 2s–8s → pair to Hold'em, *unless* you also hold two other cards both Jack or higher — then those two go to Hold'em.
4. **No pair:** the two highest cards to Hold'em.
5. **Suits:** if you can choose between cards of the same rank, keep same-suited cards together in Omaha; otherwise put the higher suit (♠ ♥ ♦ ♣) in Hold'em.

Settlement

Player wins…	Result	Base	Play
both hands	WIN	push (return)	pay 1:1
one hand	PUSH	push	push
no hands	LOSS	take	take

Examples (Base $10)

• Played 4× ($40), won both → pay $40; Base returned.
• Played 2× ($20), won Hold'em, lost Omaha → push everything.
• Played 1× ($10), won Hold'em, **tied** Omaha → push (tie = lost hand, one win).
• Played 1× ($10), lost both → take $20.
